

Math that speaks every language

Combine math and language proficiency data to personalize learning for ELL **AND** bilingual students

Your district invested in cutting-edge classroom devices and the best assessment software. ClassHero for math uses both to (finally!) help teachers instantly transform assessment results into personalized daily practice, available in a student's native language.

Automatically Use ELL Proficiency Data

Take advantage of District ELL Proficiency scores to automatically assign practice in a student's native language.

Immersion Program Ready

Easily and automatically switch between English and your immersion language

Pre-K to 8 in 30+ Languages

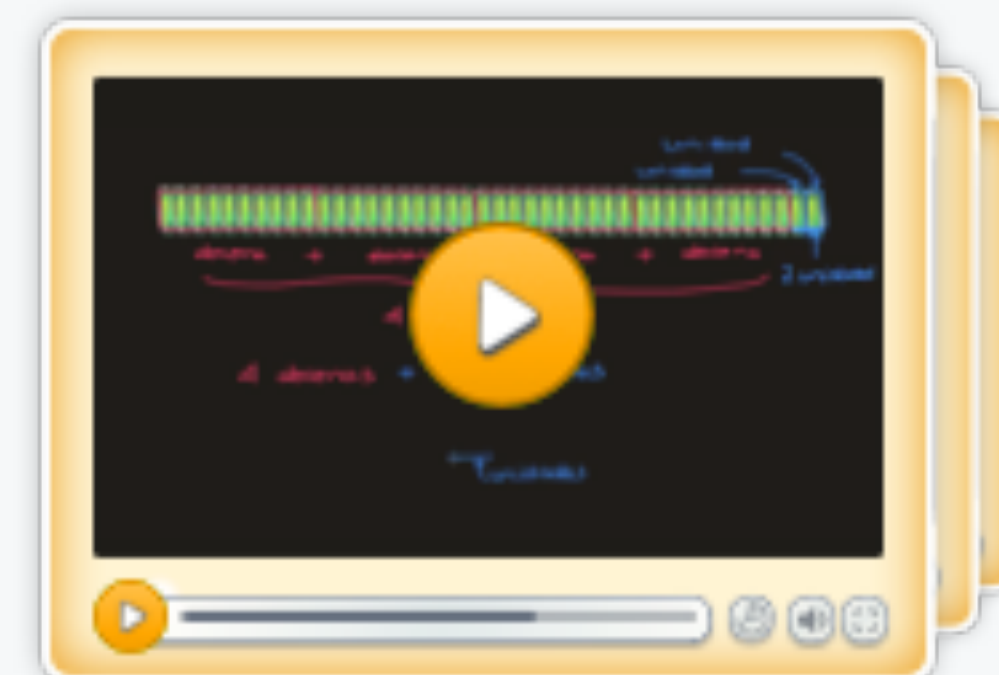

Use ClassHero in over 30 languages including Spanish, French, Russian and Vietnamese.

English Language Learners make up more than 9.5% of all students in public schools, with 80% of those being native Spanish speakers.

Source: National Center for Education Statistics

Khan Academy en Español

For Spanish speaking students ClassHero offers Khan Academy video interventions and instruction in addition to spanish audio of our curriculum.

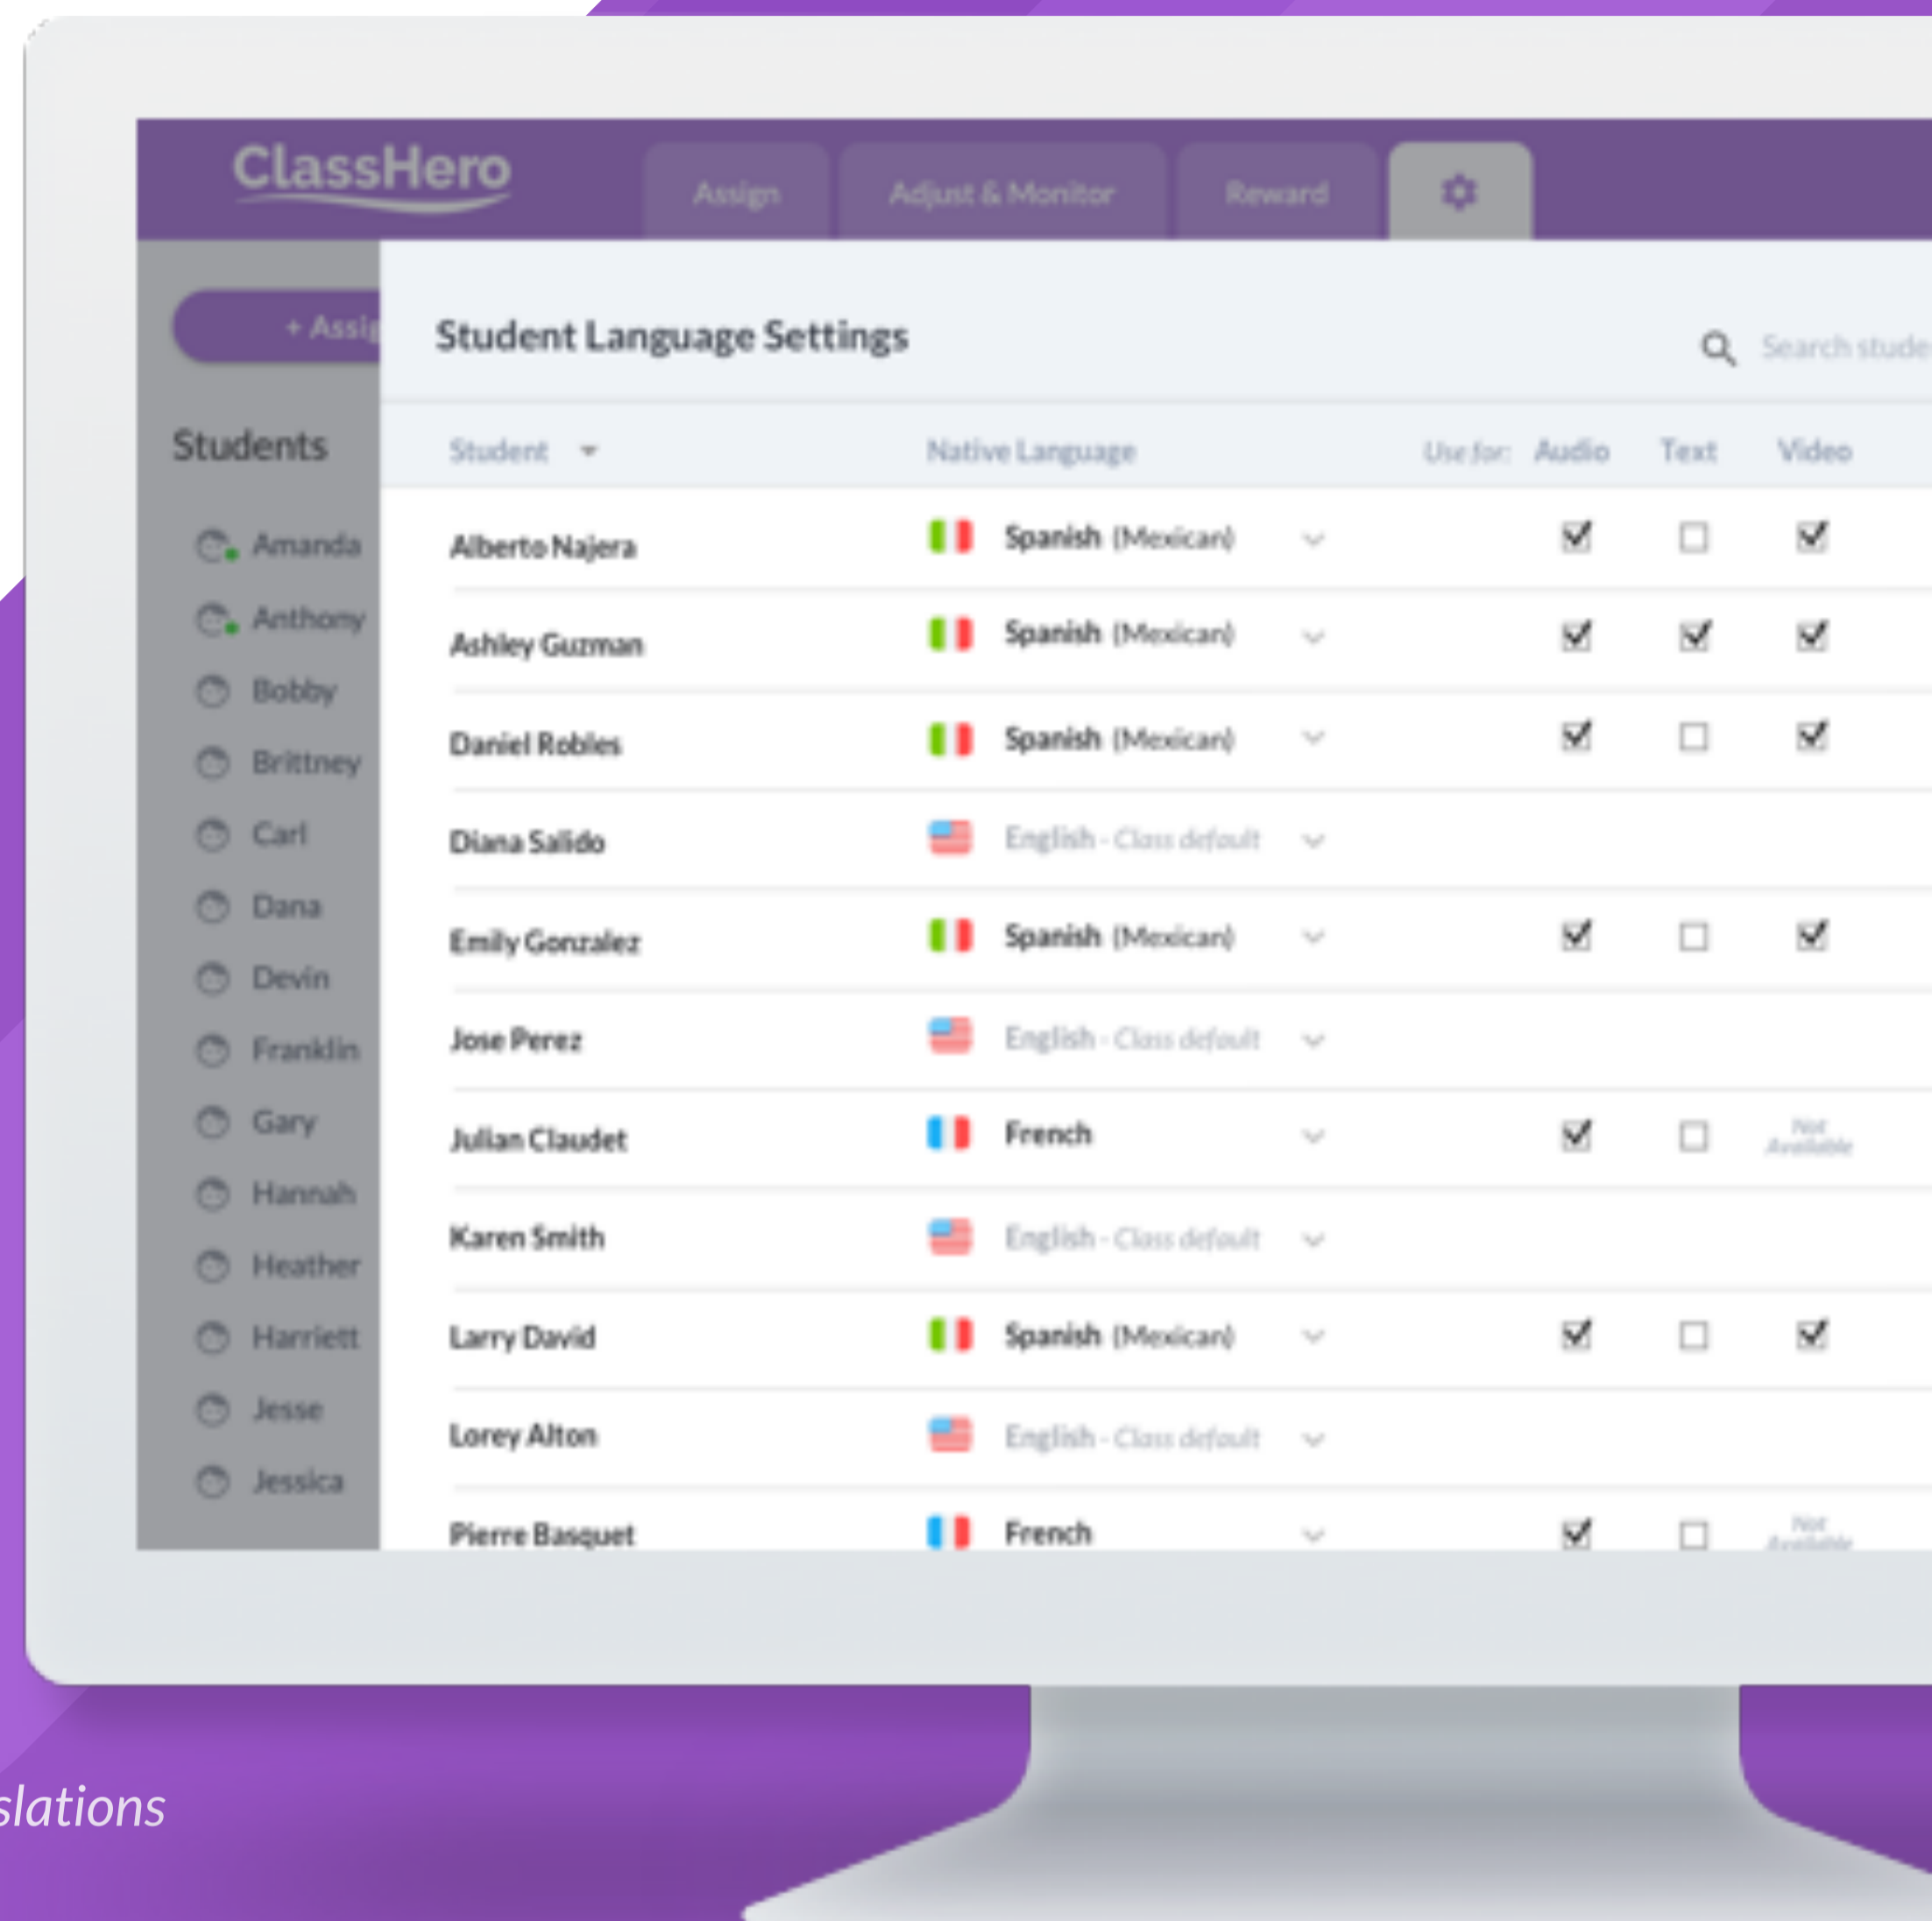

Language Support in 30+ Languages!

ClassHero's ELL content framework is designed to enable rapid custom incorporation of narration support, text translation and video for languages that may be especially needed in some communities and school districts - including languages such as Romanian or Swahili.

Leverage WIDA and District ELL Proficiency data

ClassHero integrates District ELL Proficiency scores to help automatically assign ELL and Language Narration supports to students using ClassHero. ClassHero takes advantage of district data and automates this process so that teachers do not have to spend the time setting individual language support for students - or updating those settings as and when student language proficiency scores change.

Aligned to your state's standards, just like your assessment data

ClassHero is compliant to state standards including: *Common Core, Alaska, Arizona, Florida, Georgia, Indiana, Minnesota, Nebraska, Oklahoma, South Carolina, and Texas.*
